David Bindel 831.238.6152

GLOBAL PRESENCE

In a time of global communications and global markets, there is only one true international real estate brand. Helping our clients navigate the world of real estate is what truly helps set us apart.

Another differentiator is our ability to connect buyers and sellers globally. The Sotheby's International Realty brand was established to connect the finest real estate companies to the most prestigious clientele in the world. Today our network boasts more than 13,000 sales associates, located in approximately 660 offices, in 49 countries and territories, sharing many thousand referrals around the world.

Our referral system boasts hundreds of "connections" per month coming from two channels – realty and auction. With a dedicated liaison stationed at the Sotheby's Auction House and the realty corporate headquarters, we are able to help unite thousands of buyers with the properties our network represents.

Combined, these powerful advantages translate into custom marketing strategies to achieve your goals. If you're considering selling residential property, we invite you to explore these benefits that are available through us alone.
